

Monthly Report to Congress on Separated Children | August 2023

ADMINISTRATION FOR
CHILDREN & FAMILIES

The Administration for Children and Families (ACF) submits this report to Congress as described by the following Congressional authorities: Section 234 of Pub. L. 117-328 (Consolidated Appropriations Act, 2023), which is a continuation of Section 234 of Pub. L. 117-103 (Consolidated Appropriations Act, 2022) and Section 235 of Pub. L. 116-260 (Consolidated Appropriations Act, 2021). Please find the language for this authority below:

Pub. L. 117-328 states:

SEC. 234. Not later than 14 days after the date of enactment of this Act, and monthly thereafter, the Secretary shall submit to the Committees on Appropriations of the House of Representatives and the Senate, and make publicly available online, a report with respect to children who were separated from their parents or legal guardians by the Department of Homeland Security (DHS) (regardless of whether or not such separation was pursuant to an option selected by the children, parents, or guardians), subsequently classified as unaccompanied alien children, and transferred to the care and custody of ORR during the previous month. Each report shall contain the following information:

- (1) the number and ages of children so separated subsequent to apprehension at or between ports of entry, to be reported by sector where separation occurred; and*
- (2) the documented cause of separation, as reported by DHS when each child was referred.*

For reports on all unaccompanied children (UC), see reports published on the Department of Health and Human Services' (HHS) Unaccompanied Children website:

<https://www.hhs.gov/programs/social-services/unaccompanied-children/index.html>).

The Department of Homeland Security (DHS) provides a weekly list of new separations to the ACF Office of Refugee Resettlement (ORR). ORR also creates its own list of new separations, based on its data, and appends it with the DHS list to form a combined list of new separations. ORR and DHS then conduct concurrent reviews of the combined list and create a reconciled new separations master list that shows those separations confirmed by both DHS and ORR. In cases where there is no concurrence between ORR and DHS, or more information is needed to confirm a separation, the agencies work with their field staff to reconcile discrepancies until a final determination of separation/not separation is reached. The purpose of this reconciliation is to make sure that ORR has an accurate list of all children that DHS has separated and referred to ORR for care. As a result of the process, however, the data usually lags by three weeks.

The tables below reflect data for minors, categorized by years of age, referred to ORR during the month of August 2023.¹

¹ ORR does not consistently receive apprehension date information from Customs Border and Protection (CBP) and Immigration and Customs Enforcement (ICE) when referring UC to ORR care. As a result, because it is a more reliable source of data, ORR used referral dates to generate the information provided in this report.

² Table 1 lists the categories of permissible reasons for separation used in the government’s reporting to plaintiffs in the *Ms. L.* litigation. See *Ms. L., et al., v. US Immigration and Customs Enforcement, et al.*, No. 3:18-cv-00428 (S.D. Cal. 2018).

³ 32 is the confirmed number of separations for the entire month of August 2023. Previous reporting only reflected partial list of separations for July 2023 because some separations may have not been confirmed at the time of reporting. See also FN4.

⁴ In some cases, final determinations on separation status reported during weekly data reconciliation require further review. As a result, data on separations is subject to change.

Total	16	10	2	3	1	32⁵
--------------	-----------	-----------	----------	----------	----------	-----------------------

The information provided in this report on separated children is primarily based on HHS' regular reporting to the court and to the plaintiffs in *Ms. L v. U.S. Immigration & Customs Enf't* ("ICE"), 3:18-cv-00428 (S.D. Cal. 2018) ("*Ms. L.*"), as well as DHS and ORR reconciled list of all children DHS separated and referred to ORR for care.

On June 26, 2018, the *Ms. L.* court granted a preliminary injunction and certified a class of all adult parents who enter the United States at or between designated ports of entry who (1) have been, are, or will be detained in immigration custody by DHS, and (2) have a minor child who is or will be separated from them by DHS and detained in HHS custody, HHS foster care, or DHS custody, absent a determination that the parent is unfit or presents a danger to the child. As of this writing, the preliminary injunction remains in effect.

After the court issued the preliminary injunction, as part of an interagency effort, HHS identified 2,815 minors in its custody on June 26, 2018, who were possible children of potential class member parents.⁶ The *Ms. L.* class was expanded to include separations that took place for minors referred to ORR since July 1, 2017, and discharged on or before June 26, 2018. These separations were not part of the original 2,815 minors HHS identified; however, they were later reported to the courts (see FN 7). This report includes those minors in the expanded class that were separated in the months of April 2018, May 2018, and June 2018. HHS has also subsequently tracked and reported referrals of children separated from their parents and in HHS custody on or after June 26, 2018. These reports, and the underlying data used to generate them, inform the reporting below.⁷

⁵ See FN3.

*/ DHS provided the following explanation for this category: "The code "adult spouse separated to maintain family unity of minor child and spouse" reflects a DHS data update as of July 2021. These cases include a unique population of individuals: family groups consisting of an adult parent (e.g., a noncitizen over the age of 18) (generally, an adult male), a minor parent (e.g., a noncitizen under the age of 18) (generally, a minor female), and their minor noncitizen child(ren) (generally, infants or toddlers). An adult spouse/partner is not a parent or legal guardian of the minor parent, and thus, by law, the minor parent is an unaccompanied child, as defined in 6 U.S.C. § 279(g)(2), and, under the Trafficking Victims Protection Reauthorization Act (TVPRA), DHS must therefore transfer the minor parent to the custody of HHS ORR. See 8 U.S.C. § 1232(b)(3). In these cases, DHS must also make a determination as to whether it is appropriate to keep the minor child(ren) with the adult parent or the minor parent. Given the age of the children encountered in the majority of these cases, DHS has generally determined that it is in the best interests of those children to be transferred to HHS custody with their minor mother. This results in a separation of the adult parent from his/her child. DHS makes every effort to notify HHS of the facts of the case so that HHS can determine whether reunification is appropriate. In all instances, the minor child(ren) remain(s) in unity with the minor parent.

Because of the TVPRA requirements, DHS has consistently treated such family groups in the manner described above, but, because of unique nature of these cases, the TVPRA requirements, and the structure of DHS' systems of records, DHS has not always tracked these cases as family separations in the systems of records. As part of DHS' ongoing efforts to improve the tracking of family separations, CBP undertook efforts over the course of 2021 to consistently track these cases as separations, based on the TVPRA. The reason code utilized here provides further clarity and consistency to both DHS and HHS operators as to the fact of the separation and the reason for the separation."

⁶ The government has periodically updated its count of the possible children of potential class members who were in ORR custody on June 26, 2018, based on newly available information. In January 2020, the government updated its count from 2,814 children to 2,815. See Joint Status Report, *Ms. L.* (S.D. Cal. Jan. 20, 2020), ECF No. 511.

⁷ Separately, on March 8, 2019, the *Ms. L.* court expanded the class to include parents who entered the United States on or after July 1, 2017. See Order Granting Plaintiffs' Motion to Modify Class Definition, *Ms. L.* (S.D. Cal. Mar. 8, 2019), ECF No. 386. The government completed a Court-approved plan to identify all possible children of potential

Note: Because information on cases of separation may not be immediately available at the time of a child's referral to ORR but instead uncovered during the duration of a child's stay in ORR care, monthly tabulations of separations may vary between updates to this report. For example, if a child was referred to ORR in February but was not confirmed to have been separated until May, the February total would increase by one between this and the previous version of the report.

2. The documented cause of separation, as reported by DHS when each child was referred

Please see Table 1.

3. The length in days of any such separation

The following table shows: (1) the average amount of time separated children have spent in ORR care before being released to a sponsor; and (2) the average amount of time in care for

⁸ The total number of separations reported is greater than the count of 2,815 children identified in *Ms. L.* because this count reflects a longer timeframe relative to the original *Ms. L.* class certification. 4,355 children is the count of all possible children of potential class members referred to ORR from 4/1/2018 through 8/31/2023.

4. The status of any efforts undertaken by the Secretary to reunify such children with a parent or guardian

HHS regularly reports on the status of reunifications of separated children to the *Ms. L.* court. Reunifications occur in accordance with interagency plans approved by Judge Dana Sabraw.⁹ To date, HHS has released 4,319 of the 4,355 separated children referred to ORR between April 1, 2018, and August 31, 2023.

5. The number of any such reunifications, and whether the reunified families were placed in family detention

Through August 31, 2023, ORR discharged 4,319 children separated from their parents at the border and referred to it from April 2018 through August 2023. ORR discharged 2,362 children to their separated parent and 1,957 children under other appropriate circumstances, including discharges to sponsors where the parent was ineligible for reunification.

⁹ See HHS/DHS Unified Plan of Operations, *Ms. L.* (S.D. Cal. Jul. 15, 2018), ECF No. 109-1; see also Interagency Plan for Reunification of Separated Minors with Removed Parents, *Ms. L.* (S.D. Cal. Aug. 16, 2018), ECF No. 189.

Through June 26, 2018, ORR discharged 301 children separated from their parents at the border identified as Expanded *Ms. L.* Class and referred to it from April 2018 through June 2018. The number of minors reunified with their separated parents was not collected during the expanded class review, so discharge information is limited to sponsor category.

¹⁴ “Other Appropriate Circumstances” include discharges to sponsors, which can occur in situations where a child’s separated parent is ineligible for or elects against reunification, and age outs.

¹⁵ Length of care reflects the total amount of time in ORR care, regardless of shelter placement. Length of stay is specific to the amount of time a child in ORR care is in a specific shelter.

¹⁶ As of August 31, 2023, there were 36 UC still in ORR care with lengths of care ranging from 5 day to 937 days. This includes children who were part of the original *Ms. L* class. For these specific cases, reunification was determined not to be in the best interest of the child, and while there is currently no sponsor identified, they are all placed in the least

To track children who may be in connection with the Migrant Protection Protocols (MPP), ORR creates a potential MPP list from information that may be received either from the referring agency during the minor’s initial referral or from the care provider after placement in ORR care. To confirm these cases, ORR sends the potential MPP list to DHS to create a reconciled MPP master list that confirms the total number of minors previously being subject to the MPP policy with their families and are now in ORR care. ORR compares this list with the reconciled new separations master list (Section 235 of P.L. 116-94 of this report) to determine the total number of minors confirmed separated from parents, legal guardians, or other family members in connection with the MPP program.

The table below reflect the number of children separated from parents, legal guardians, or other family members in connection with the MPP program and the number of children who were previously subject to the MPP policy with their families and subsequently re-entered the United States alone and were transferred to ORR as unaccompanied children through August 31, 2023.

¹⁷ A sponsor is an individual (in the majority of cases a parent or other relative) or entity to which ORR releases an unaccompanied child out of federal custody. Category 1 sponsors are parents or legal guardians; Category 2 sponsors are immediate relatives (adult siblings, grandparents, aunts, uncles, first cousins); Category 3 sponsors are distant relatives or unrelated adults.

¹⁸ Minors included in the total here who were not separated from their parents while in the custody of CBP are not counted in the data above.

¹⁹ These minors were separated while in CBP custody, per permissible reasons for separation used in the government’s reporting to plaintiffs in the *Ms. L.* litigation. See *Ms. L., et al., v. US Immigration and Customs Enforcement, et al.*, No. 3:18-cv-00428 (S.D. Cal. 2018).
