## Privacy Impact Assessment

**Date Signed:**

02/24/2015

**OPDIV:**

CDC

**Name:**

AHB OpenStack

**PIA Unique Identifier:**

P-1077493-603498

**The subject of this PIA is which of the following?**

Minor Application (stand-alone)

**Identify the Enterprise Performance Lifecycle Phase of the system.**

Development

**Is this a FISMA-Reportable system?**

No

**Does the system include a Website or online application available to and for the use of the general public?**

No

**Identify the operator.**

Agency

**Is this a new or existing system?**

New

**Does the system have Security Authorization (SA)?**

No

**Indicate the following reason(s) for updating this PIA.****Describe the purpose of the system.**

The purpose of the AHB OpenStack is to evaluate the OpenStack cloud solution to allow ITSO to determine the processes and best approach for ITSO to align current services offerings with future service offerings for CDC cloud customers.

In support of OMB's "Cloud First" policy, HHS is evaluating options for procuring cloud services. ITSO is preparing infrastructure for interfacing with potential Cloud Service Providers and their CDC customers. The ITSO Cloud Computing Project is focused on preparing infrastructure, addressing service gaps, and implementing processes for cloud services.

**Describe the type of information the system will collect, maintain (store), or share.**

This is a proof of concept and development system only. There is no CDC/AHB data associated with this system. The system is being established in order to evaluate the OpenStack solution. There will be no data collected. There will be no PII data collected or processed.

**Provide an overview of the system and describe the information it will collect, maintain (store), or share,**

The purpose of the AHB OpenStack system is to evaluate remote cloud infrastructure resources from OpenStack to allow ITSO to determine the processes and best approach for ITSO to align current services offerings with future service offerings for CDC cloud customers.

In support of OMB's "Cloud First" policy, HHS is evaluating options for procuring cloud services. ITSO is preparing infrastructure for interfacing with potential Cloud Service Providers and their CDC customers. The ITSO Cloud Computing Project is focused on preparing infrastructure, addressing service gaps, and implementing processes for cloud services. This is a proof of concept and development system only. There is no CDC/AHB data associated with this system. There will be no data collected. There will be no PII data collected or processed.

**Does the system collect, maintain, use or share PII?**

No
