Name:

DART Laboratory Information Management System (DART LIMS)

PIA Unique Identifier:

P-1393962-335352

The subject of this PIA is which of the following?

Minor Application (child)

Identify the Enterprise Performance Lifecycle Phase of the system.

Implementation

Is this a FISMA-Reportable system?

No

Does the system include a Website or online application available to and for the use of the general public?

No

Identify the operator.

Agency

Is this a new or existing system?

New

Does the system have Security Authorization (SA)?

No

Indicate the following reason(s) for updating this PIA.**Describe the purpose of the system.**

The NIOSH LIMS software is used to process requests from NIOSH industrial hygienists and laboratory researchers for chemical analytical support and to manage and store laboratory reports.

Describe the type of information the system will collect, maintain (store), or share.

Information about samples being processed for analysis.

Provide an overview of the system and describe the information it will collect, maintain (store), or share,

The LIMS maintains records of over 10,000 sample sequences that have been analyzed by NIOSH chemists and the NIOSH contract laboratory. The LIMS stores data on the request for sample set analysis, provides a process for approving laboratory reports by quality assurance personnel and branch managers, and has an automated messaging service to notify researchers when the final reports are ready to download.

Does the system collect, maintain, use or share PII?

No
